

JAMB 2020 Logo

The logo for the 7th ASEAN Jamboree consists of five radiating rays with the Singapore city skyline and the logo of the ASEAN Scout Association for Regional Cooperation (ASARC) in the background.

The five radiating rays signify a vibrant outward-looking community bonded together in partnership. Five tips reach out to the sky, representing our tireless quest for growth and improvement while the other five tips remain grounded, signifying our pride in our culture and heritage. The rays are also reminiscent of padi stalks highlighting our shared cultural heritage. Amidst our unique identities and traits, together we are greater than the sum of our parts. The ten tips also remind scouts of the 10 original parts of the scout law suggested by Baden-Powell.

The city skyline highlights Singapore's growth, in part due to our unique location in Southeast Asia. It also shows the adaptability of Scouting in both the urban setting and the great outdoors.
